RE: Notification of Nutritional Support Statements

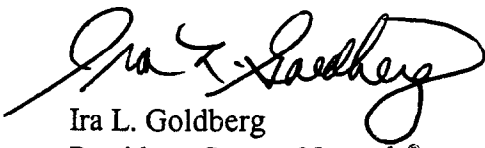

To whom it may concern:

I hereby notify the Food and Drug Administration (FDA) of the use of statements of nutritional support in the labeling of Guggulsterones, a dietary supplement. Source Naturals® is the manufacturer of Guggulsterones.

Statements being made in the labeling of Guggulsterones

- 1) Guggulsterones help maintain cholesterol levels already in the normal range, by acting at the farnesoid X receptor (FXR) to promote the conversion of cholesterol into bile.
- 2) They also boost thyroid activity, which supports cholesterol regulation by the liver.

To the best of my knowledge and belief, and based upon information available at the time of the execution of this notice, I certify that the above information is accurate and complete. Source Naturals® possesses substantiation that the statements are truthful and not misleading.

  
Ira L. Goldberg  
President, Source Naturals®
